

SANITIZATION

Washing hands with disinfectant soap is recommended, using a nail scrub for a thorough clean (scrub well under the nails).

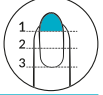

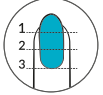

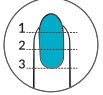

BUILDER

- 1 Clean hands with the *Hand Cleansing Solution*, push back cuticles and prepare the natural nail, with the *Andreaia Nail File* and *Buffer*. Clean nails with the *Cleanser*.
- 2 Apply a thin coat of DIPPING POWDER BASE on just the edge of the nail. — **Zone 1**
Dip the nail into the DIPPING POWDER BUILDER of the chosen shade. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 3 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 4 Apply a thin coat of DIPPING POWDER BASE from the middle to the edge of the nail. — **Zone 2**
Dip the nail into the DIPPING POWDER BUILDER of the chosen shade. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 5 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 6 Apply a thin coat of DIPPING POWDER BASE from the area close to the cuticle to the edge of the nail. — **Zone 3**
Dip the nail into the DIPPING POWDER BUILDER of the chosen shade. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 7 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 8 Apply the DIPPING POWDER ACTIVATOR and let it dry for **2 minutes (VERY IMPORTANT)**. 
- 9 Shape the nail using the *Nail File*, *Buffer* and *Super Shine Buffer*.
- 10 Clean the nail with the *Cleanser*.
- 11 Apply the DIPPING POWDER ACTIVATOR and let it dry for **1 minute** and **clean with a dry lint-free cloth (VERY IMPORTANT)**. 
- 12 Apply a **quick and smooth** coat of DIPPING POWDER TOP COAT and let it dry for **1 minute**. 
- 13 Apply a second coat of DIPPING POWDER TOP COAT from the cuticle area to the edge of the nail, sealing the tip of the nail well, and let it dry for **2 minutes**. 

COLOR

- 1 Clean hands with the *Hand Cleansing Solution*, push back cuticles and prepare the natural nail, with the *Andreaia Nail File* and *Buffer*. Clean nails with the *Cleanser*.
- 2 Apply a thin coat of DIPPING POWDER BASE on just the edge of the nail. — **Zone 1**
Dip the nail into the DIPPING POWDER BUILDER of the chosen shade. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 3 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 4 Apply a thin coat of DIPPING POWDER BASE from the middle to the edge of the nail. — **Zone 2**
Dip the nail into the DIPPING POWDER COLOR (or continue using the DIPPING POWDER BUILDER, if you wish to continue using the Builder shade) of the chosen shade. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 5 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 6 Apply a thin coat of DIPPING POWDER BASE from the area close to the cuticle to the edge of the nail. — **Zone 3**
Dip the nail into the DIPPING POWDER COLOR (or continue using the DIPPING POWDER BUILDER, if you wish to continue using the Builder shade) of the chosen shade. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 7 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 8 Apply a thin coat of DIPPING POWDER BASE over the entire nail.
Dip the nail into the DIPPING POWDER BUILDER – CLEAR. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails.
- 9 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 10 Apply the DIPPING POWDER ACTIVATOR and let it dry for **2 minutes (VERY IMPORTANT)**. 
- 11 Shape the nail using the *Nail File*, *Buffer* and *Super Shine Buffer*.
- 12 Clean the nail with the *Cleanser*.
- 13 Apply the DIPPING POWDER ACTIVATOR and let it dry for **1 minute** and **clean with a dry lint-free cloth (VERY IMPORTANT)**. 
- 14 Apply a **quick and smooth** coat of DIPPING POWDER TOP COAT and let it dry for **1 minute**. 
- 15 Apply a second coat of DIPPING POWDER TOP COAT from the cuticle area to the edge of the nail, sealing the tip of the nail well, and let it dry for **2 minutes**. 

FRENCH WHITE

- 1 Clean hands with the *Hand Cleansing Solution*, push back cuticles and prepare the natural nail, with the *Andreia Nail File* and *Buffer*. Clean nails with the *Cleanser*.
- 2 Apply a thin coat of DIPPING POWDER BASE on just the edge of the nail. — **Zone 1**
Dip the nail into the DIPPING POWDER BUILDER – CLEAR. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 3 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 4 Apply a thin coat of DIPPING POWDER BASE from the area close to the cuticle to the edge of the nail. — **Zone 3**
Dip the free edge of the nail into the DIPPING POWDER BUILDER – WHITE using the DIPPING POWDER CASE. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 5 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 6 Apply a thin coat of DIPPING POWDER BASE from the area close to the cuticle to the edge of the nail. — **Zone 3**
Dip the free edge of the nail into the DIPPING POWDER BUILDER – WHITE using the DIPPING POWDER CASE. Gently shake the finger to remove excess powder after each dip. Immediately dip into the DIPPING POWDER BUILDER - SOFT PINK/SOFT WHITE. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails. 
- 7 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 8 Apply a thin coat of DIPPING POWDER BASE over the entire nail.
Dip the nail into the DIPPING POWDER BUILDER – CLEAR. Gently shake the finger to remove excess powder after each dip. Repeat the process for all nails.
- 9 Gently press the powder. Remove excess powder with the *Powder Remover* brush.
- 10 Apply the DIPPING POWDER ACTIVATOR and let it dry for **2 minutes (VERY IMPORTANT)**. 
- 11 Shape the nail using the *Nail File*, *Buffer* and *Super Shine Buffer*.
- 12 Clean the nail with the *Cleanser*.
- 13 Apply the DIPPING POWDER ACTIVATOR and let it dry for **1 minute** and **clean with a dry lint-free cloth (VERY IMPORTANT)**. 
- 14 Apply a **quick and smooth** coat of DIPPING POWDER TOP COAT and let it dry for **1 minute**. 
- 15 Apply a second coat of DIPPING POWDER TOP COAT from the cuticle area to the edge of the nail, sealing the tip of the nail well, and let it dry for **2 minutes**. 

REMOVAL

- 1 Remove as much shine from the nail as possible, to facilitate removal.
- 2 Prepare a bowl with very hot water.
- 3 Prepare another bowl with absorbent paper and an abundance of DIPPING POWDER REMOVER and place it over the first bowl.
- 4 Place fingers inside the bowl and press the nails to help dissolve the product. **(10 min.)** 
- 5 If necessary, remove any residual DIPPING POWDER using the *Andreia Buffer*, without damaging the natural nail.
- 6 Clean with a lint-free cloth.

CLEANING BRUSHES

- 1 Remove brush from the DIPPING POWDER BASE and/or DIPPING POWDER TOP COAT.
- 2 Remove excess product using a dry lint-free cloth.
- 3 Place the brush inside the bottle of DIPPING POWDER BRUSH CLEANSER and set aside for **5 to 10 minutes**.  
- 4 Remove the brush from the bottle and clean it with dry tissue paper.
- 5 Let it dry for **2 minutes** so that the DIPPING BRUSH CLEANSER can evaporate. 
- 6 Place the brush back in its respective bottle.

NOTES

After each application of DIPPING POWDER BASE, clean the brush using tissue paper so that powder doesn't accumulate.

Always remove any excess DIPPING POWDER BASE and DIPPING POWDER TOP COAT which may have remained around the neck of the bottle using the DIPPING POWDER BRUSH CLEANSER to prevent the lid from sticking between applications.

If you feel that a corner or part of a nail has not been covered with the powder of the respective color, **never apply** the DIPPING POWDER BASE directly over the DIPPING POWDER ACTIVATOR. First use the nail file and only then use the glue, respective powder and the activator. Otherwise, the DIPPING POWDER BASE brush will harden.

If a nail is ruined after applying the top coat, use the *Super Shine Buffer*.

Always apply thin coats of the DIPPING POWDER BASE to avoid clumps.

NOT FOLLOWING THE APPLICATION INSTRUCTIONS CAN LEAD TO POOR RESULTS!
